Hei,  
You must talk to Orkland commune about slam/septic. ReMidt cannot change the invoice/faktura regarding slam/septic/sludge.

You have received a reminder on the same invoice that has been sent previously. We recommend that you pay the invoice and contact Orkland municipality/kommune regarding questions about septic tanks.

It is only the municipality that can grant an exemption for septic tanks.

Vennlig hilsen

Hei,

I got message with faktura from ReMidt Norge about slam. On this house I don't use water and slam tank. Nobody are live there.

ReMidt Norge give me information that Orkland Kommune are responsibility for that area about slam.

They need information from Kommune to cancel this faktura.

I send to you also information from ReMidt Norge "

Hello,

Housing unit(s) that have been uninhabited for at least 6 consecutive months receives a leisure subscription.

If the building is in physical despair or is used as storage the housing unit can receive a full exemption from the waste disposal scheme. In these cases, the accommodation unit(s) are not suitable for rest or food preparation.

We are awaiting additional information about the condition of the building to process your application for exemption.

You can read about reasons why buildings can get exemption from renovation here <https://www.remidt.no/en/fritaksregler/>  
Select language up in the right corner.

It is the individual municipality (kommune) that processes applications for exemption from the sludge scheme (slam).  
ReMidt invoices the fee.

Vennlig hilsen
